Many Miles Block Signals.

Many Miles Block Signals.

The expenditure budget for the Harriman lines for 1905 includes an appropriation for the installation of 612-65 miles of block signals. The management has decided to install electric block signals to the exclusion of all others. The greatest work will be done on the Southern Pacific, where there will be 332 miles of signal installation. On the Union Pacine nearly 150 miles of block signals are to be installed. The work on the Oregon Railroud & Navigation company's lines will be confined to the line between Portland and Bonneville, a distance of forty miles, and between Cayuse and La Grande, a distance of sixty miles. The Southern Pacific aiready has 430 miles of line blocked, the Union Pacific fifty-nine and the Oregon Short Line thirty-one. The company is also going to install seventy-tour miles on Morgan's Louisiana & Texas railroad.

HOUSE STANDS ON ITS RIGHTS

Sends an Amendment Back to Senate.

Vote Practically Unanimous in Resenting Infringement by Upper House.

Mann Bill to Provide a Government for the Canal Zone Is Passed.

WASHINGTON, Feb. 16.-The naval appropriation today further occupied the at tention of the House for a major por tion of the session, but the bill was with out particular incident and no material amendment was adopted. Its consideration had not been concluded when ar ournment was taken

Ratifying Treaty With Indians. The bill to ratify and amend an agreement with the Indians of the Shoshon or Wind River reservation in Wyomlus was pased, after eliminating the provi-sion granting a preferential privilege to Asmus Payson to select 60 acres of min-eral and coal land within that reservation

Infringing on House Privileges. Rising to a question of privilege, Mr. Payne, New York, offered a resolution regarding the action of the Senate in adopting an amendment interpreting the Diugley act with reference to drawback on wheat. The resolution was as follows: Resolved. That the amendment No. 298, addi-ed by the Senate to the House bill 18,328, In the opinion of the House, contravenes the first clause of the seventh section of the first article of the Constitution of the United States and is an infringement of the privileges of the House, and that the said bill, with the amendment, be respectfully returned to the Senate with a message communicating this resolution.

Payne Explains.

Payne Explains.

The reading of the resolution was greeted with appliance. In explaining the Senate's action, Mr. Payne said the amendment abolished the drawback clause in the Dingley bill on wheat imported into the United States and afterwards manufactured into flour and exported. He said he did not intend to discuss the merits of the amendment, whether it was wise or unwise. He was loudly applianded by both Republicans and Democrats when he asserted that the main question was "whether that clause in the constitution which declares that all bills for raising revenue shall originate in the House shall be cherished by this House as one of its privileges." The question, he said, also was "whether we will resent any intringement from any source of that clause of the constitution."

of the constitution. Sacred Rights of House.

Mr. Payne called attention to the fact that the House uniformly had insisted on its rights as guaranteed by the constitu-tion and read a number of precedents in proof of his assertion. He said the right to originate revenue legislation was a sacred one of the House.

Williams' Op. nion of House.

Williams' Op. alon of House.

Mr. Williams (Miss), the minority leader, aliuded to the action of the Senate "in engaging in a strenuous effort to prevent a real or supposed attack by the executive, a usurpation in the opinion of the Senate, upon its own function and dignity" and said it was a peculiarly inappropriate time for the Senate to attempt "to make plain, plausable, obvious and aggressive attack upon the dignity of the House." Except in connection with legislation affecting the revenue, Mr. Williams said, the House stood today as a body composed of a great many House committees and that all it did was to prepare legislation in some shape or other and send it over to the Senate, as was done with the rate bill, "to be put other and send it over to the Senate, as was done with the rate bill, "to be put into the shape that even a majority of the House desired."

Mr. Williams charged the Republicans with being afraid to touch the Dingley law. The resolution was adopted on a yea and nay vote, 251 to 5.

Governing Canal Zone.

Governing Canal Zone.

The Mann bill to provide a government for the canal zone was passed without further discussion. The bill gives all the right of government of the canal zone to the President until the ond of the next Congress, but provides that the government shall be so exercised as to protect the inhabitants in the free enjoyment of their liberty, prosperity and religion. It abolishes the isthmian Canal commission and places the work of the construction of the canal in the hands of the President and such persons as he may appoint and employ. It does not undertake to determine whether the canal shall be constructed as a sea level of lock level waterway.

HEYBURN BILL FAVORED.

Idahoans Want Fort Hall Reservation Thrown Open to Public.

POCATELLO, Ida., Feb. 16 -Col. J. M. ngersoll, Hon J. H Brady and others of Pocatello and vicinity have for some time past been quietly arranging matters so that a bill providing for the opening of the remainder of the Fort Hall Indian reservation might be introduced in Congress. Upon his recent visit to Washington Mr. Brady had several conferences with Senator Heyburn in regard to this matter, and since his arrival home a message has been received by Col. Ingersoil from Senator Heyburn, stating that a bill to this end is now before the Senate. It is not yet known all the bill proposes, but it is generally understood that it is to give to the Indians their various alletments, and to sell the balance of the land, the proceeds arising therefrom to be used by the department in the construction of irrigation ditches and the building of homes for the benefit of the Indians, and to encourage them in supporting themselves along the lines of agriculture.

As the proposed legislation means much, at this time, to this part of the country, every one is hopeful that it be passed, and are looking forward to it with a great deal of anticipation.

It would throw open to settlement vast tracts of most desirable farm and ranch fands lying between Blackfoot, American Falls and Pocatello. Persons settling upon these lands would find a ready market for all their products in Pocatello and Blackfoot, as it is now possible to construct an efficient irrigation system for all the irrigable lands in this entire tract.

Should this bill be passed, all of the lands not occupied by the Indians, as per allotment, would be thrown open the same as other Government lands. of Pocatello and vicinity have for some time past been quietly arranging matters

EQUITABLE'S TROUBLES.

Hyde and Alexander Re-Elected Officials of Organization.

NEW YORK, Feb. 16.-James W. Alex ander and James H. Hyde were re-elected president and first vice-president, re-spectively, of the Equitable Life Assurance society at the adjourned meeting of the directors today. All the other offi-cers whose terms had expired were re-

celected.

A resolution was adopted recommending that policy holders be given the right to vote for directors, and a committee which includes President Alexander and Vice-President Hyde was appointed to carry out this step, which is practically the policy of mutualization advocated by President Alexander.

The results outlined were reached after a protracted session, which was marked at times by considerable feeling. Friends of Vice-President Hyde were disposed to view the outcome as a victory for their side, but in other quarters the result was regarded as a general compromise, in which the contending factions met half way

That Mr. Hyde had a majority of the directors with him, however, was never in doubt. His election to the chairmanship of the executive and financial committees was regarded as significant in

mittees was regarded as significant in this connection.

Today's solution of the society's traubles was largely due, it is understood, to the conciliatory methods employed by Senator Depew and Jacob H. Schiff. Contrary to report, Mr. Schiff had not arrayed himself on either side, and was among those who favored mutualization.

A GREAT MEDICINE

His Coachman Shot BRINGS HEALTH TO THREE MEMBERS OF SAME FAMILY. BERS OF SAME FAMILY.

> Cures a Wife's Debility After Malaria, a Husband's Rheumatism, a Daughter's Nervous Prostration.

The claim of Dr. Williams' Pink Pilis o be a genuine household remedy is based on the fact that they make the blood sound and the nerves strong and

so overcome a variety of diseases.
"I have recommended Dr. Williams'
Pink Pills to many people," said Mrs. Gossett, because I have seen such good results, time after time, right in my own family. There are three of us who do not need to take anybody's word on the subject, for our own experience in the past ten years has taught us how well they deserve the praise given them by so many others.

'It was just about ten years ago that first read about Dr. Williams' Pink Pills. In a newspaper article which gave the testimony of some woman who had been cured by them. Her symptoms were so much like mine that I thought I would try them, and I then bought my first box. "I was at that time all run down in

had died of that disease.

"Thanks to Dr. Williams! Pink Palls.
I am now alive and hearty. I began to
improve as soon as I began to take
them. The first box roused up my appetite, so I got three more boxes, and
when those had been taken I was a
well woman. I always take a few as a

My oldest girl's health began to fail when she was about fourteen, as the result of too close application to her school work. She was nervous, plained of sharp pains in her head, would get deathly sick and have to leave the school room to get fresh air to revive her. I gave some pills to her. She took only a few boxes, but they cured her troubles and caused her to develop into a perfect picture of health. Then my husband took them for rheumatism and found that they would cure that too. So you see we have all got great good from using them and that is why we recommend
